

Woven metal surfaces for architecture and interiors.

Our chairman's father, Gordon Burke, was a master upholsterer. A man who understood how materials behave under constraint, woven structure, and the discipline of craft. That heritage runs through everything we do. Through Studio Saint Pierre, through The Look Company, and now through Maison Jacquard.

Woven copper surfaces, made to order. Designed for walls, glass partitions, architectural dividers, window treatments, furniture, and luxury packaging. Each surface is woven to specification. Pattern, dimension, finish. Every element defined by the project.

Designed in France. Backed by LookGroup's global infrastructure across design, production, and logistics. From Saint Pierre to Geneva, Seattle, Tampa, Toronto, Doha, and Manila.

APPLICATIONS

- Wall Panels
- Glass Partitions
- Architectural Dividers
- Window Treatments
- Furniture
- Deluxe Sets

THE COLLECTION

Bespoke.
Custom surfaces woven to your specification.

Collections.
Curated material libraries for specification.

Artworks.
Woven metal and copper wire with collector value.
